Thank you for your continued trust in Jensen Pediatric Dentistry. Be assured that we have always followed state and federal regulations and recommended universal personal protection and disinfection protocols to limit transmission of all diseases in our office and continue to do so. As with the transmission of any communicable disease like a cold or flu, you may be exposed to COVID-19, also known as "Coronavirus," at any time or in any place.

Despite our careful attention to sterilization, disinfection, social distancing, and use of personal barriers, there is still a chance you could be exposed to an illness in our office, just as you might be in any public place. Due to the nature of the procedures we provide, it is not possible to maintain social distancing between the patient, dentist, dental team and sometimes other patients at all times.

Although exposure is unlikely, do you accept the risk and consent to treatment? YES NO
